ACG Releases Version 6.21a

Volume 3, Issue 1

April 10, 2003

“Holy Legal Woes, Batman.” (I’m appealing to the baby boomers with that quotation.) Saskatchewan’s Law Society has made some big changes recently with the annual influx of fiscal year end Law Society Audits. Although the changes are a reflection of the “bad apple” complex it doesn’t mean the Law Society is the enemy. They are simply making all legal professionals more accountable. My experience is this just means using a more recognized or endorsed accounting and time & billing program like PCLaw to the fullest extent of its capabilities is more likely to be the “norm” than the exception. Being more accountable doesn’t have to mean more cost to you either, however, although initially it feels that way. Please call or fax back with your level of interest, I will plan a trip to your area.

- We ARE interested in having you contact us when you are going to be in the area.
- We are also interested in receiving your newsletter.
- We are not interested at this time.

Firm Name _____

New Program Features - Incredible!

- Some features released in Version 6.x are following:
- Register - formerly “Working With”
 - Calendar format, working with and reporting
 - Calendar interface familiar and uses windows 32 bit technology to cut and paste to other programs.
 - Unlimited contacts that cross reference to matter files, great for corporate files with large boards
 - Enhanced conflict checking
 - Matter Manager - improved interface
 - Improved interest control for Past Due Notices
 - Customization of desktop allowed for each user.
 - More report customization

And so much more!

REMEMBER If you are on a support contract with ACG you are entitled to this update TODAY! But you have to ask for it! **Call 1-800-387-9785**

Also those who are on previous versions please be sure you have the latest version available to you as they are the most stable and reliable.

Versions are Windows V2.53, V3.20, V4.16, V5.5 &

TRAINING SESSIONS - BOOKING 2 WEEKS IN ADVANCE

USERS: WS Setup, create matters, walk around program, initial templates, and more...

BOOKKEEPER: Session, bank rec's, month end, year end, reports and more...

TECKNOWGEEKS(JUST KIDDING!): Template editing, security, network and data verification maintenance...

NEW UPDATE ALL USERS: Introduction to update, new payroll users, features and functionality.

CUSTOM: Any combination of above sessions.

TIPS on AUTO EXPAND: Have you ever typed a number, hit the space-bar and a whole line of words appeared? If you don't want that to happen just hold the Shift Key down as you space. It temporarily suspends the Auto-expand feature.
